

Article number: 1404

Weight*: approx. 534 kg

Dimensions*: 2900 x 1700 x 2000 mm (b x h x w)

Highlights

- ✓ Winding without tubes
- ✓ Powder-coated and galvanised version
- ✓ Easily adjustable winding arm
- ✓ Provides staff economy and efficiency
- ✓ Robust construction
- ✓ Control box can be operated from the driver's cab (right/left)
- ✓ Two directions of rotation for the winders

The coreless winder is designed for the last winding without winding tubes of pocket films, perforated films, fleeces, nets, drip tubes etc.

The winder has 3 attachment options: rear, front hydraulics and front loader consoles.

The robust design and durable components ensure safe and long-lasting use.

The 2 sectioned winders allow winding in both directions of rotation without a core. The wrapped material can be disposed of in one operation. The extension length of the winding arm can be easily adjusted with a locking bolt. The standard 3-pin 12-volt Euro plug enables power supply from the tractor. The coreless winder requires 2 double-acting hydraulic connections. Operating the machine is simply done from the tractor. All around, the coreless winder is a perfect addition to the efficient winding of films to be disposed of.

*Production-related tolerances are possible in the specified data, weights and dimensions.
No legally binding assurances of specific properties can be derived from this information.
Errors and omissions excepted.

■ ■ ■ Made in Germany

Suitable for the following crops::

Mixed growing

Strawberries

Vegetables

Asparagus
