

1459.06 | ProfiStar corrugated discs fronframe 3-row version

Article number: 1459.06

Weight*: approx. 630 kg

Dimensions*: 2580 x 880 x 1330 mm (b x h x w)

Highlights

- ✓ Can be used for soil and ridge cultivation
- ✓ CAT 2/3 attachments
- ✓ Large corrugated discs Ø 450 mm
- ✓ Can be used as front and rear attachment
- ✓ Can be hitched to combinations
- ✓ Robust construction
- ✓ Tools are infinitely adjustable

Corrugated discs front frame:

The corrugated disc frame is the ideal supplement to the mechanical weed control from the ProfiStar series.

The rotating discs cut tendrils and long stolons in open land and on ridges and achieve a clean and even result. The corrugated disc frame can be used on the 3-point mounting of the CAT 2 with front or rear hitching.

The front lighting (StVZO) is assembled as standard. The working width of the six Ø 450mm corrugated discs can be ordered individually.

The width of the planting rows can be infinitely adjusted. The corrugated disc front frame is available in 2, 3 and 4-row versions.

*Production-related tolerances are possible in the specified data, weights and dimensions. No legally binding assurances of specific properties can be derived from this information. Errors and omissions excepted.
